Sedona by Lynx® is Proud to Announce the Redesign of the Series

Greenwood, Mississippi – [Lynx Grills](#), the leading name in premium outdoor kitchen products, is proud to unveil the refreshed Sedona by Lynx Series, featuring a sleek redesign and enhanced performance across the new L501, L601, and L701 models. These latest additions bring elevated style, improved functionality, and a modern edge to the beloved Sedona line — perfect for today's outdoor cooking enthusiasts. The new design introduces a satin brush finish to the canopy edges, a brushed stainless finish on the bullnose and drip tray handle, and a re-engineered drip tray for improved maintenance and visual appeal.

All models now include rotisserie rod storage on the rear of the grill, streamlining organization without compromising the sleek silhouette. Freestanding models benefit from additional enhancements including expansive side shelves for increased prep space, soft-close hinges, and an improved interior cart shelf for added storage.

The Sedona by Lynx Series continues to offer the performance and features that have made it a trusted choice for premium outdoor kitchens. Each model is available in a variety of burner configurations, including traditional stainless steel tube burners and the powerful ProSear™ infrared burner, each delivering 23,000 BTUs of heat that's both powerful and versatile. Rotisserie models come equipped with a dedicated rear burner, motor, spit rods, and forks, accommodating up to 25 pounds.

Cooking surfaces remain generous across the line with a 733 square inches on the 30-inch models, 891 square inches on the 36-inch models, and 1,049 square inches on the 42-inch models providing ample space for entertaining at any scale.

Signature features such as direct spark ignition with battery backup ensure consistent lighting, while dual halogen grill surface lights, blue-lit control knobs, and an integrated temperature gauge offer clarity and control while cooking. The Lynx Hood Assist allows for effortless opening and closing of the grill lid, and the heavy-duty welded construction ensures lasting durability by eliminating gaps where grease can collect. Each unit is finished with stainless steel grilling grates and a fluid rotation handle for a smooth, responsive user experience.

Lynx Outdoor Color Collection Pricing:

- L701 42" Built-In Grill: Starting at \$4,049
- L701 42" Freestanding Grill: Starting at \$5,649

- L501 30" Built-In Grill: Starting at \$2,999
- L501 30" Freestanding Grill: Starting at \$4,399

“We are thrilled to refresh the Sedona by Lynx Series with upgrades that bring enhanced style and function to a grill already beloved by outdoor cooking enthusiasts,” said LeAnne Gault, Product Manager for Lynx Grills. “Every detail, from the satin brushed finishes to the expanded storage and user-friendly features, reflects our commitment to elevating the outdoor cooking experience for both casual grillers and professionals.”

The redesigned Sedona by Lynx Series maintains its reputation for delivering professional performance with an approachable aesthetic—now elevated with thoughtful refinements that enhance both form and function. Available in 30”, 36”, and 42” models, in built-in or freestanding configurations, the Sedona by Lynx line offers flexibility, power, and style to match today’s luxury outdoor living spaces.
