Lynx® Grills Unveils the Lynx Kamado Grill: A New Standard in Outdoor Cooking

Greenwood, Mississippi - [Lynx Grills](#), the leading name in premium outdoor kitchen products, is proud to announce the launch of its latest charcoal cooking platform: the Lynx Kamado Grill. This 18" ceramic grill is engineered to deliver exceptional performance and versatility, transforming outdoor cooking into a refined culinary experience.

The Lynx Kamado Grill features a robust 1.5" of premium grade, insulating ceramic construction, ensuring superior heat retention and efficiency. Available in two striking finishes—sleek Gloss Black and sophisticated Matte Gray—the grill seamlessly integrates with any outdoor kitchen design.

With 250 square inches of cooking surface, the grill offers precision temperature control from 225 to 750 degrees Fahrenheit. This expansive range enables a variety of cooking techniques, from intense searing to slow smoking, making it perfect for preparing everything from hearty meats to delicate seafood.

The grill's 3-Tier Stainless Steel Racks, designed in a flexible half-moon shape, enhance its versatility. The Ceramic Deflector Plates create multiple heat zones, allowing for full control of heat intensity and optimal temperatures for various foods. Additionally, the stainless-steel charcoal basket promotes better airflow, resulting in cleaner burns and increased efficiency by filtering out ash and recycling larger charcoal pieces. The included stainless-steel divider allows for a seamless transition between indirect and direct cooking as needed.

The Lynx Kamado Grill also features a double-thick gasket that provides a superior air-tight seal, crucial for maintaining precise temperature control and cooking efficiency. This robust design ensures long-lasting performance, while the high-quality 304 stainless steel cooking grates heat up quickly and provide even heat distribution, essential for perfect cooking results.

To further enhance the grilling experience, the grill is equipped with a built-in thermometer that eliminates the need to open the grill, allowing for consistent temperature maintenance. The stainless-steel slide-out ash drawer makes clean-up quick and easy, ensuring a hassle-free grilling experience.

For additional convenience, the grill includes a heavy-duty, spring-assisted hinge with a powerful stainless-steel latch, ensuring effortless dome operation and consistent internal temperatures. The included stainless-steel rotisserie, combined with a quiet 120V motor, accommodates up to 50 pounds of meat, ensuring juicy, smoky, and tender results.

"We are excited to bring the Lynx Kamado Grill to outdoor cooking enthusiasts who want versatility, precision, and lasting quality in a charcoal grill," said Alex Granado, Brand Developer

for Lynx Grills. “This grill offers everything from slow smoking to high-heat searing with advanced design features that make cooking easier and cleanup faster. It truly raises the bar for outdoor cooking experiences.”

The Lynx Kamado Grill is now available to purchase for \$2,499. For more information or to find a local dealer, please visit www.lynxgrills.com.
