It’s more than a grill, it’s a state of mind. Born in Southern California, and rooted in a mix of stunning geography, idyllic weather, stylish people, and healthy, adventurous cuisine. It’s an environment that drives innovation, comfort, and ingenuity. A place that is the envy of a nation cursed to conform to the seasons.

It’s only natural that a superior outdoor suite of cooking equipment would come from here. Where better to craft the perfect luxury lifestyle product?

More than just a place, more than just a grill, it’s a way of life.

We invite you to live the Lynx Life.
Easy, stylish and natural. Stunning to the senses. From simple foods, simply prepared, to luxurious cuisine crafted with flair. It’s comfortable, clever and organic. It’s spices with spirit, sauces that soothe.

The Sedona by Lynx™ fits comfortably in a world where luxury elements are balanced with well-worn staples. Where warm breezes mix with good friends and quiet moments. A world where big meals are designed to delight, or intimate dining is enjoyed under the stars.
The Sedona by Lynx™ Series is easy excellence. It’s comfortable and flexible, always evolving to be the best at something new.

That philosophy is reflected in its features. We've refined these features to give you a grilling experience that’s both simple and stunning. Whether you're cooking lemon butter tilapia or portobello mushrooms, fusion cuisine or time-tested favorites, the Sedona by Lynx™ helps you create sensational results.

When you want to relax, share amazing food with your friends, or try a new inspiration, the Sedona by Lynx™ is waiting.
There’s a mystical air that arises just as the sun starts to set and the evening arrives. It’s a beautiful time to grill… if you can.

Every Lynx grill incorporates elegant blue illumination emanating from each knob with a calm blue light. As you lift the lid, intuitive halogen illumination shows you exactly how your food is looking. So, just check in on your food. Then, get back to basking in the sundown grill aroma. It seems to steal an amber essence from the last of the sun.

**LYNX HOOD ASSIST**

Solid stainless steel gives our grills a sense of substance. They feel firm at every touch, with a sound and an aura of permanence. But you can lift the hoods with just a finger—each one is centrally balanced, and has a heat-treated assist system that makes it surprisingly weightless to open and close. You’ll probably do it twice—just to feel it again.

Go ahead. Everyone does.

**SEDONA BY LYNX™ SERIES**  30” FREESTANDING GRILL
Lynx is proud to introduce the first freestanding cart grill designed for individuals with disabilities. Available in 30" and 36" freestanding cart sizes, with or without rotisserie option.

MEET MICHAEL

The ADA grill is an achievement of passion, vision, and a unique partnership that steered the development process. When the Lynx engineering team began designing the ADA grill, we knew we needed an authentic voice to guide its development. Through a mutual friend, we were introduced to Michael (out of respect for privacy, we refrain from including his last name). Michael is a C7 quadriplegic, having suffered a break in his 7th cervical spinal cord segment in a diving board accident that left him paralyzed from the chest down.

Michael was involved in shaping key features of the ADA grill; the propane tank holder, the insulated bullnose, and the grill storage system to name a few. We were happy to hear that core features of our Sedona by Lynx™ grills, such as the Lynx Hood Assist were his favorite features. Michael’s contributions on improving the accessibility features of the ADA grill has been invaluable. His insight into the people and families that comprise the disabled community has had impact beyond measure.

We started out as partners. We are glad to call Michael a friend. Thank you for all your contributions Michael. We couldn’t have done it without you.
